

From Scientists to Innovators for Industry

PARTICIPANT'S LIGHT PROGRAMME GUIDE

SCI FI

Transitioning from academic research to working in the Pharma and Medtech industries can be challenging. This course helps you overcome that challenge with the guidance of academic and industry partners, so that you can learn from real-life cases and increase your skill set needed in an industrial setting .

Through our three-month blended-learning programme we aim to facilitate the transition from an academic research environment to the working world of the industry. With the support of our industry partners, we want to ensure that you receive crucial skills needed for this transition to an industry setting - soft skills, creative skills, business skills and industry specific skills.

**Challenge-based,
blended learning**

**Top-notch experts from
industry, business
and academia**

**Access to industry,
access to best talents**

About the guide

The purpose of the document is to collect all information relevant for SCI FI Participants:

- Timeline
- Bonus modules
- Structure of modules

SCI FI starts on 1 September and ends on 12 December.

Within SCI FI you will work using MOODLE and SLACK. All links will be shared on 1 September.

- How to engage? Insider's views to value creation
videos & quizz
- Medical Device Regulation
videos & quizz

Structure of modules

Friday #1 - Friday #2 (following week)

Mandatory
readings

Further
reading
(optional)

Videos with
quizzes

SLACK

By Sept 1st, you should have received an invitation.
SCI FI /From Scientists to Innovators for Industry

You should have these channels, with a description on how to use each of the channels once you open them.

Click here to send direct messages to an individual person or a group of people.

When you open your Slack account, add a profile picture so it is easier to recognize you and make sure your username is correct.

MOODLE

You can log in to the Moodle platform via <https://sci-fi.network/>

Should be completed before 10th
September

You can adjust your
profile and page.
You can send
message to others

The screenshot displays the Moodle platform interface for the 'eit Health' course. The top navigation bar includes the 'eit Health' logo and a user profile dropdown for 'John Smith'. The main content area shows a 'Course overview' section with a progress bar and a list of course modules. The modules are numbered 1 through 7, with a 'BONUS' section and a 'GOODBYE' section. The sidebar on the right contains sections for 'Upcoming events', 'Calendar', 'Level up!', 'External tools', and 'SCI FI Coordinator'. A blue arrow points to the 'Course overview' section, and a blue circle highlights the user profile 'John Smith' in the top right corner.

Deadlines within
next 2 weeks

You can import all
deadlines to your
calendar

You can monitor
your progress

Access to SLACK

Technical Support

MOODLE - Calendar

If you don't want to miss any event or deadline, export all dates to your calendar.

Click on 'September 2023'

Click on 'export calendar'

Select type of events and time.
Export SCI FI calendar to your
personal calendar.

MOODLE - Intro & Goodbye

In the Introduction you will find general information about SCI FI, structure, partners.

You will also access your 1st Task 'SELF EVALUATION QUIZ'.

In this part you will find a link to register to the EIT Health Alumni network, you will be able to fill in the post-programme survey and download a certificate confirming participation in SCI FI (if you have paid the fee for it).

In this section you will find invitation to the Recruitment event including:

- short description of the event,
- date and time of the event,
- link to the online event,
- agenda,
- BIO of Keynote speakers.

MOODLE -Modules

As part of the Modules you will find:

- Introduction to the module (giving you an outline of the content)
- Preparation (prior to the content)
- Further information (for more in depth information)
- Main content (where you access the video clips)
- Quiz (to see if you have understood the content)
- Module feedback (with a short survey on the how you liked the content)

Please note: modules will be 'unlocked' corresponding to the timeline (Fridays at 5pm), when you are supposed to take the modules.

SCI FI Team

one of the best medical Universities in Poland

Marcin Ciszewski - Project Coordinator

Friedrich-Alexander-Universität
Erlangen-Nürnberg

#1 in Germany and ranked
#2 in Europe at the Reuters innovation ranking

**Heike Leutheuser
Victoria Goldberg**

brings expertise of 6th best young university worldwide

**Mark Govers
Rudy Schreiber**
